Feedback Report on Course Evaluation 2019-2020

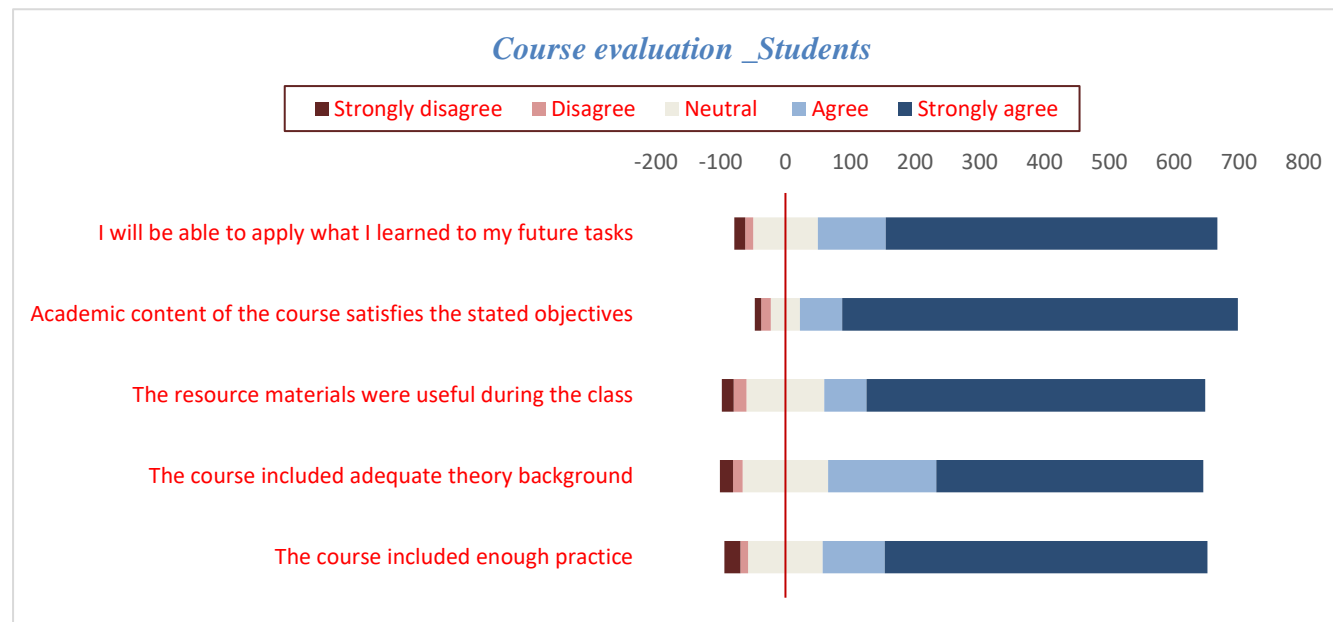

Introduction

Feedback is an essential element of the learning process. The IQAC collected feedback on various course aspects from the students and faculty, using a questionnaire during the academic year 2019-20. A well-structured questionnaire was prepared to collect realistic responses. The feedback obtained was analyzed using a 5-point rating scale. The feedback collected from the individuals has been analyzed and considered for the course development.

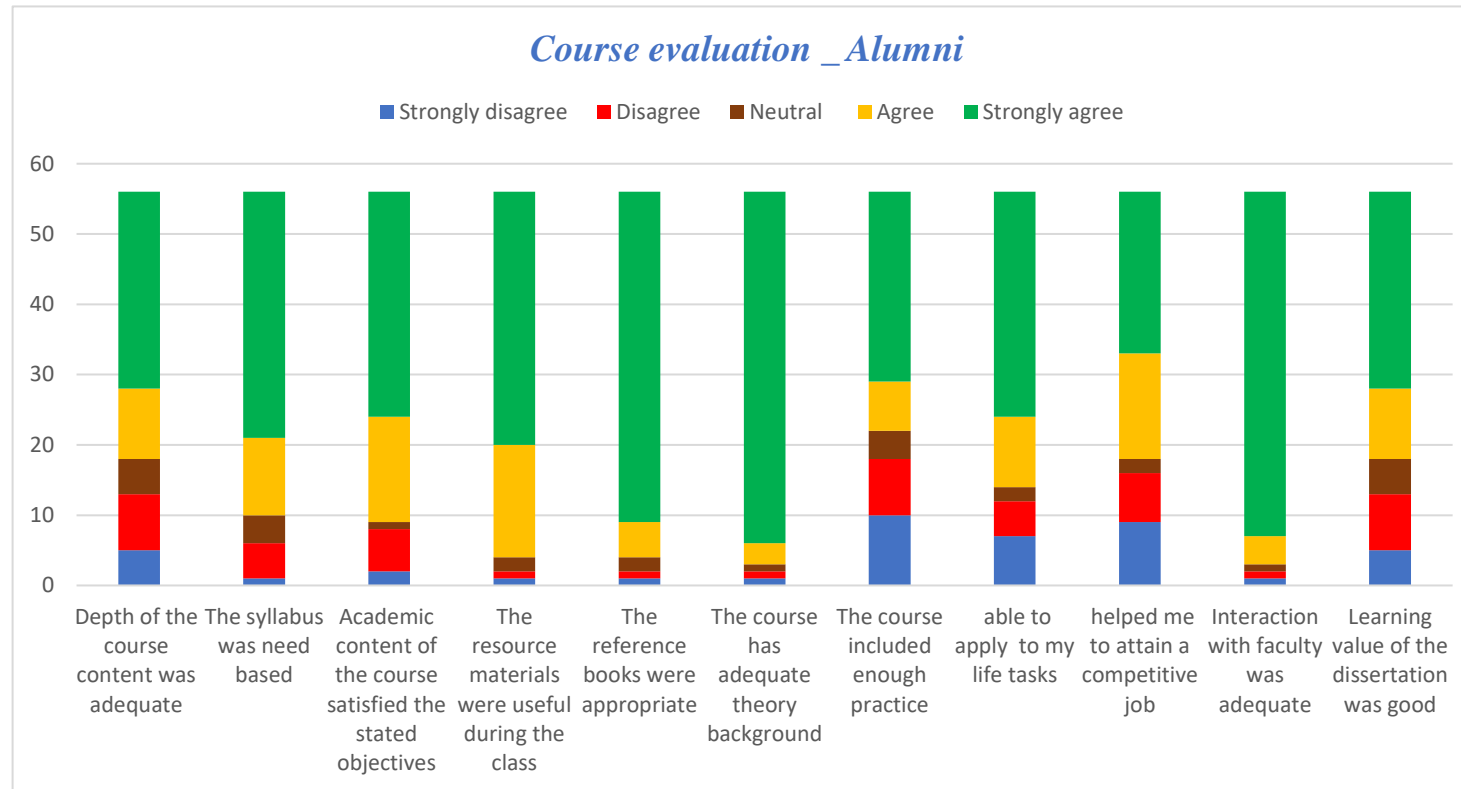

Course Evaluation Feedback from Students:

The college has a structured proforma for obtaining feedback from the students. For the academic year 2019-2020, students' feedback for the course evaluation is sought. Most students agreed that course learning can be applied in their future works. As the survey showed, 81.90% of students agreed that they were very satisfied with the academic content.

The analysis of the students' feedback depicts that they are well-satisfied with the course objectives and the resource materials.

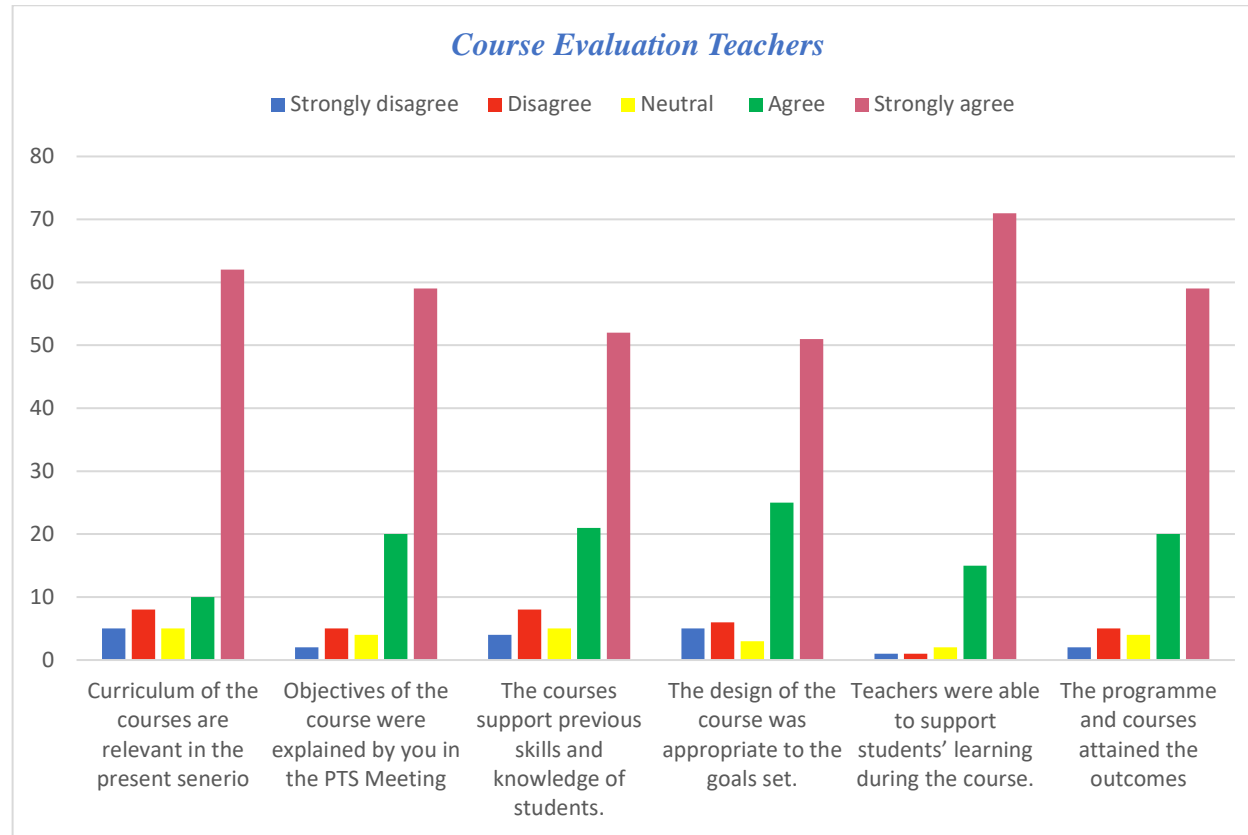

Course Evaluation Feedback from Alumni

As the survey showed, 87.50% of students strongly agreed that the interaction with faculty was adequate. The majority of the students agreed that the learning value of the dissertation was good. Overall, alumni were highly satisfied with the course syllabus.

Course Evaluation Feedback from Teachers

About 80% of teachers strongly believe that the courses support the previous skills and knowledge of students. It has been observed that some cha need to be incorporated into the design of the course.
