## *Report on Feedback Analysis 2023-2024*

## SURVEY ANALYSIS REPORT

### Introduction

Feedback is an essential element of the learning process. The IQAC collected feedback on various curriculum aspects from the students and faculty, using a questionnaire during the academic year 2023-24. A well-structured questionnaire was prepared to collect realistic responses. The feedback obtained was analyzed using a 5-point rating scale. The feedback collected from the individuals has been analyzed and taken into consideration for the development of the curriculum, and teaching-learning process. The detailed analysis of data obtained along with a graphical representation is included below.

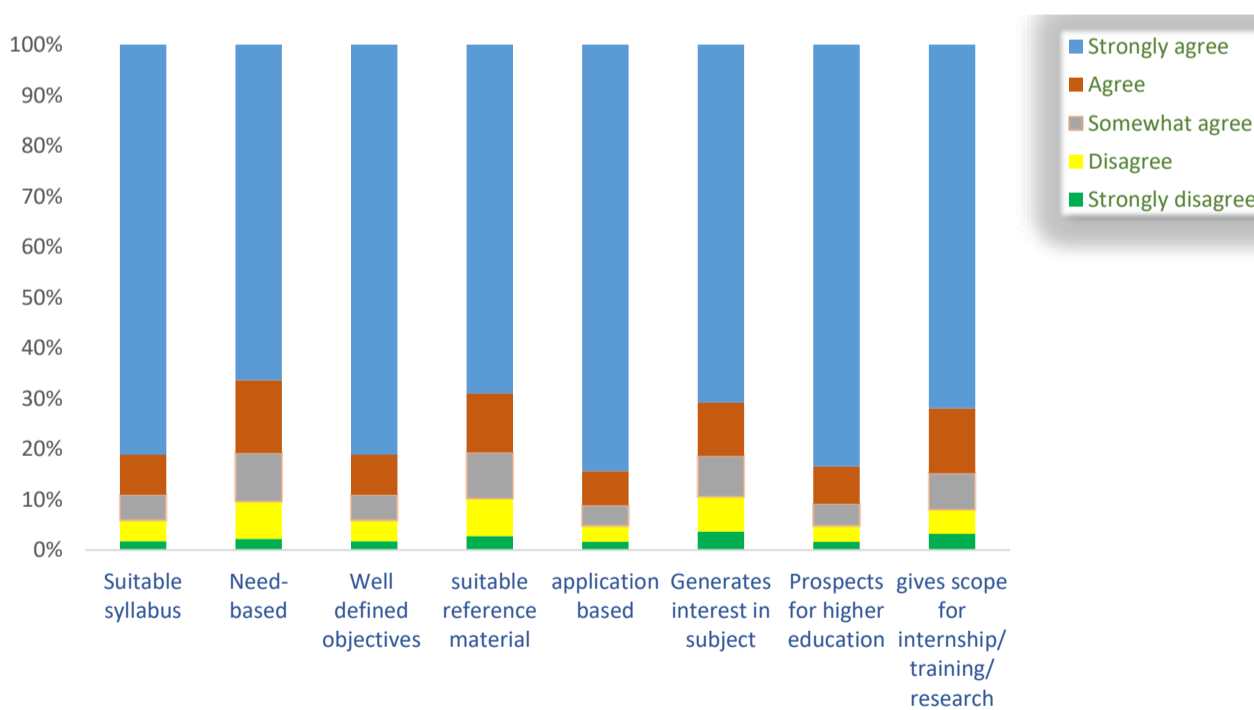

### **Feedback from Students:**

The college has a structured proforma for obtaining feedback from the students. For the academic year 2023-2024, students' feedback about the curriculum and teaching-learning process is sought. As pointed out by 84.12% students, the course has well-defined objectives. The majority of the student population agreed that the syllabus along with the reference material were suitable. As the survey showed, 84.80% of students agreed that the course has prospects for higher education, and 71.97% strongly agreed that the course gives scope for internship or research. Moreover, 84.36% of students agreed that the syllabus balances theory and application.

### **Feedback analysis report**

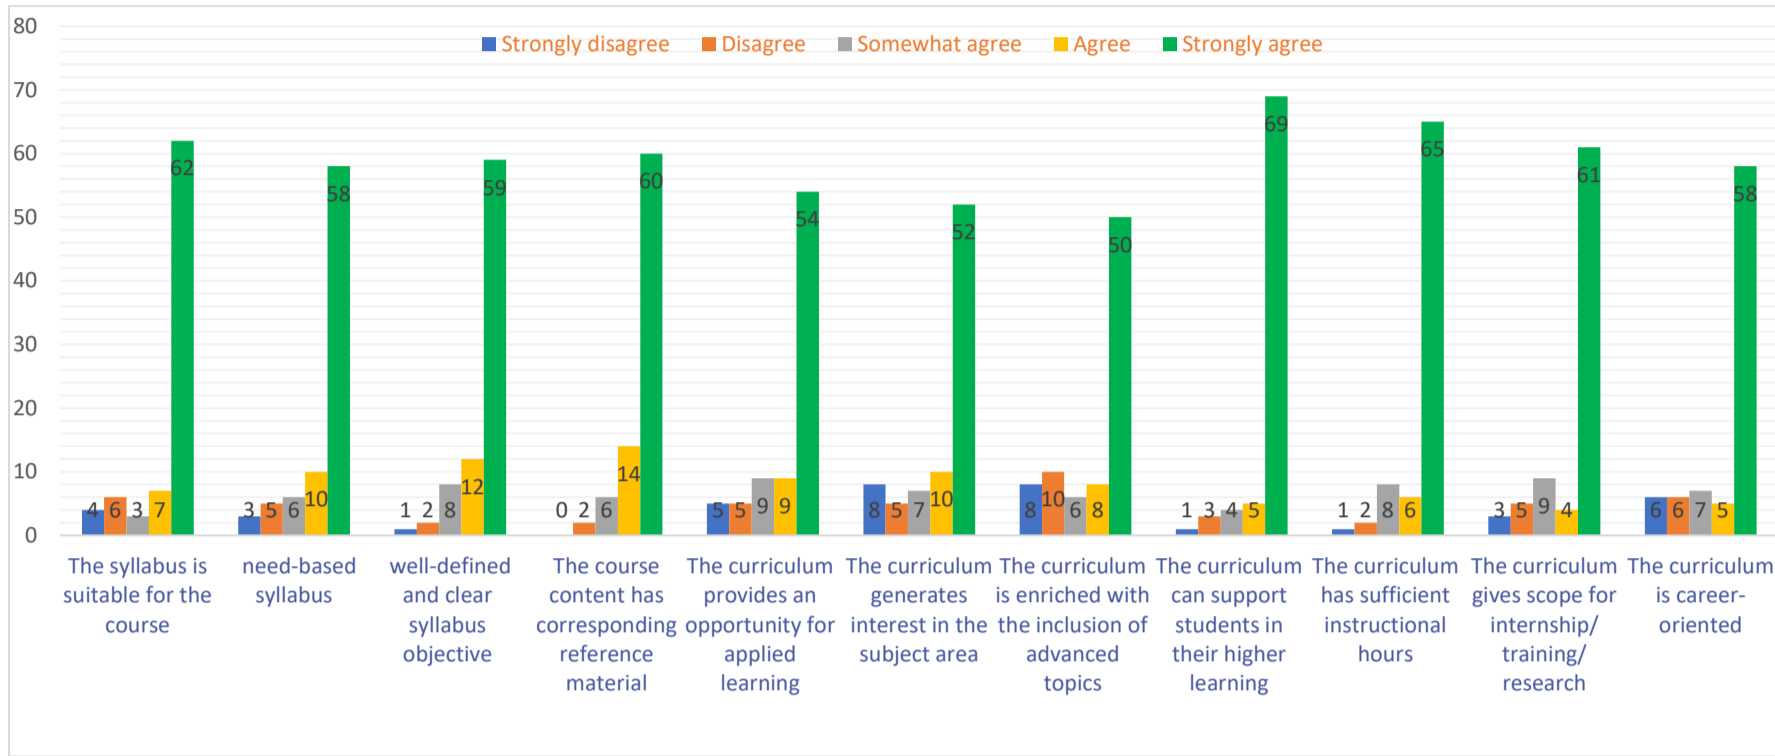

- The analysis of the students' feedback depicts that they are well satisfied with the curriculum development and teaching-learning process.
- The students highly appreciated the scope of the course.
- It is observed from the students' feedback that few of them expressed the need for some change in the syllabus to generate interest in the subject.

### **Students' Feedback Survey Analysis**

**Feedback from Teachers:**

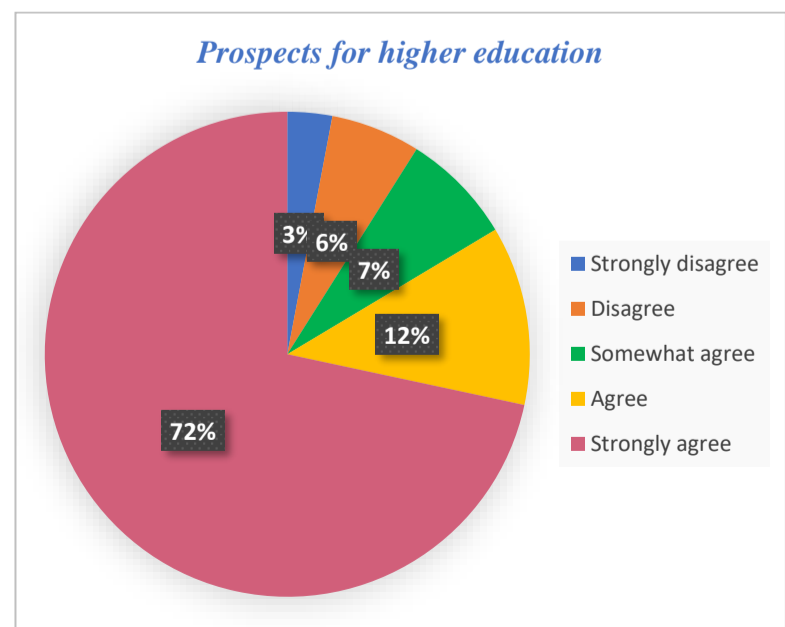

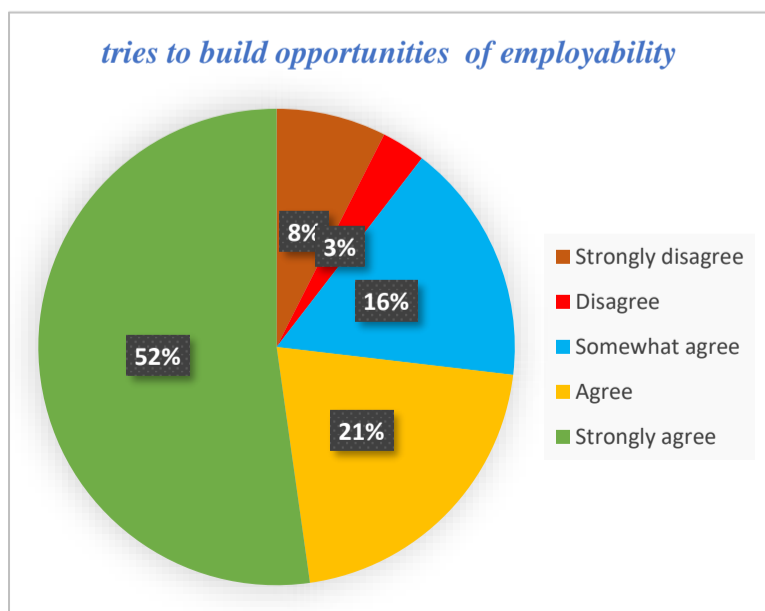

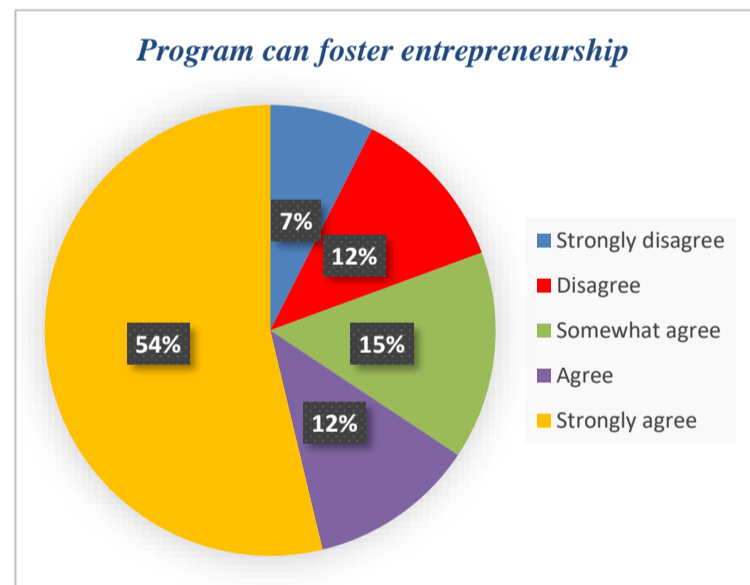

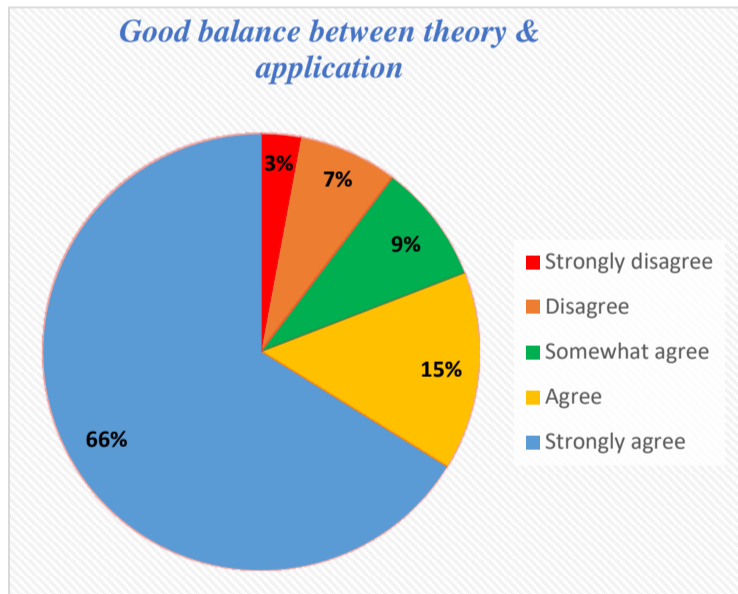

To assess the quality of our educational programs, services, and facilities, as well as to identify areas for improvement and enhancement; conducted a Feedback survey among the college's teaching staff to provide actionable insights for decision-making and enhancing the overall development of the institution. This report was prepared based on the feedback from the teaching staff during 2023-2024.

It is observed that 84.14% of teachers strongly agreed that the curriculum can support students in their higher learning. 60.90% teachers strongly agreed with the need for advanced topics in the curriculum. The majority of teachers agreed that the syllabus was suitable for the course.

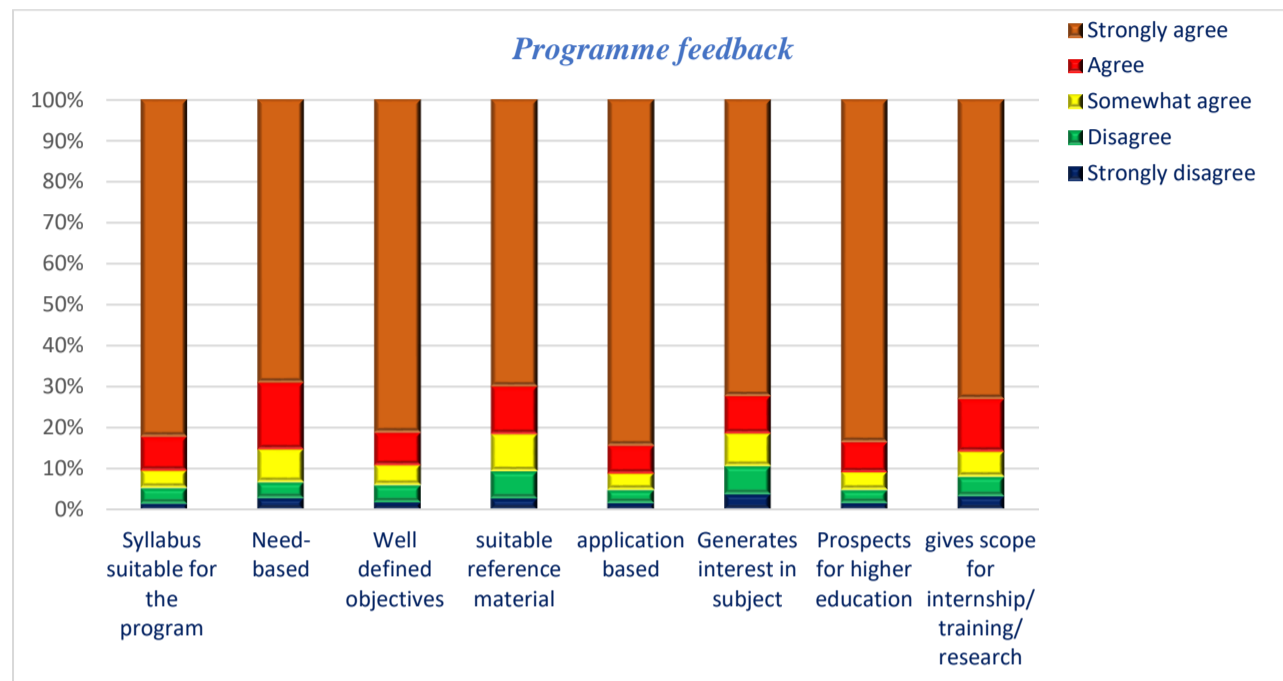

**Program Feedback Report:**

**From Alumni**

The majority of the alumni strongly agreed that the course has prospects for higher education.66% strongly agreed with the good balance between theory and application of the programme.

**From Students:**

**Feedback analysis report**

- The analysis of the students’ feedback depicts that they are well-satisfied with the syllabus, especially its application-level concepts.
- The students highly appreciated the scope of the course.
- It is observed from the students’ feedback that few of them expressed the need for some changes in the syllabus to generate interest in the subject.
